INTRODUCTION

Allow your creativity to flow with our exclusive ranges of wall panels, cladding, SPC flooring and our latest edition, Tiles. GretaGrove offers a wide range of stylish colours, textures and designs that will add character and flair to any of your interior walls, floors, and ceilings in any room. At GretaGrove our aim is striving to build a better future through quick and easy building solutions for our customer. In addition to bringing longevity to surface finishings within your living spaces.

GretaGrove provides endless design opportunities to compliment your home. Embrace your inner vision and make the right choice with GretaGrove.

PVC WALL PANELS

Wall Panels are ideal for bathrooms, toilets, kitchens, and all other living areas as they are water-resistant and easy to clean. At GretaGrove we have a wide range of decorative Wall Panels that come with a variety of colours, patterns and textures. At Greta Grove we have your walls covered.

WHY CHOOSE WALL PANEL ?

A quick and easy decision for our customers that want to save time with their building projects as well as achieving a clean and tidy finish. Our Wall Panels are lightweight too which is one of the many reasons why they are a popular choice with interior designers.

PVC CLADDING

Cladding is a great decorating solution for ceilings, they can be used to effortlessly cover up imperfections and just like Wall Panels they are easy to clean. GretaGrove's Cladding designs are inspired by the most sought-after natural materials or the latest trends, we have created two collections for GretaGrove's Cladding The Classique Collection and The Moderna Collection.

WHY CHOOSE CLADDING ?

For one, our customers are not limited to using GretaGrove's Cladding just for their ceilings but also their walls. GretaGrove's PVC Cladding can be utilized in any room and with our design collections the possibilities of your interior design are endless.

SPC FLOORING

SPC Rigid Core Click Vinyl Flooring - GretaGrove's SPC (Stone Polymer Composite) flooring is one of the most popular types of multilayer flooring currently in production today, GretaGrove is providing its customers with the latest best quality products available. We strive to bring you all the best building materials under one roof.

WATER RESISTANT

EASY TO CLEAN

WHY CHOOSE SPC FLOORING ?

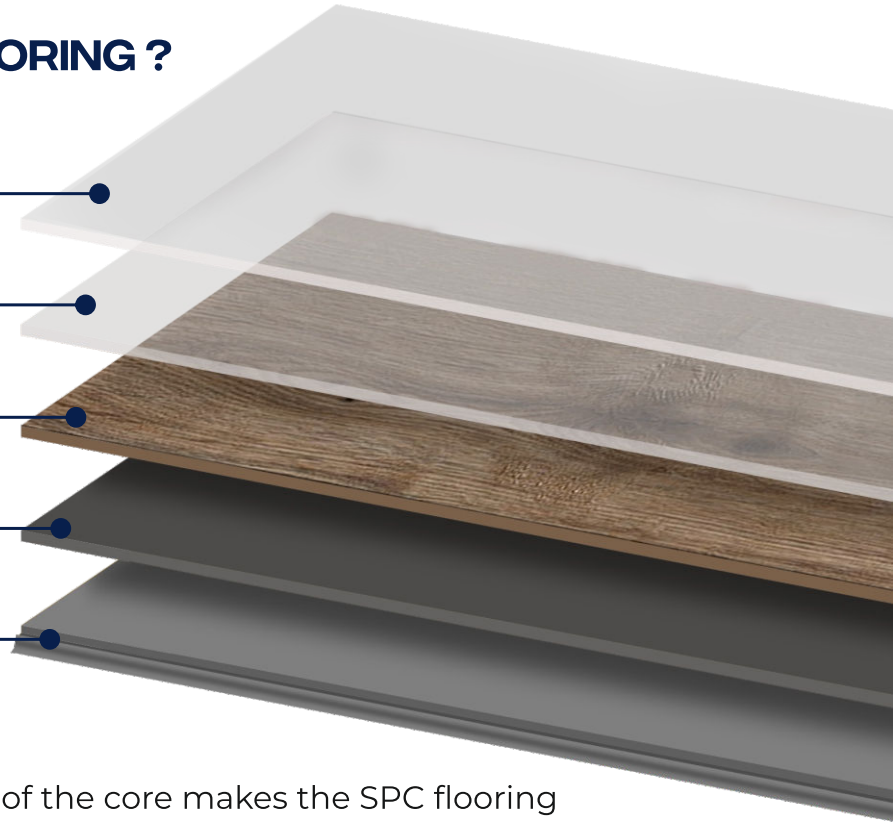

UV TOPCOAT

WEAR LAYER

IMAGE LAYER

CORE LAYER

BACKING LAYER

The Stone Polymer composition of the core makes the SPC flooring rigid, which means GretaGrove's SPC flooring is an excellent choice for high traffic areas in your home/office. In comparison to other flooring such as LVT, this flooring has five layers:

1. UV TOPCOAT

Our premium flooring has extra protection in the form of a UV topcoat, which helps combat discoloration from the sun.

2. WEAR LAYER

It has a good thick wear layer that will keep your flooring looking new years after installation.

3. IMAGE LAYER

This gives your flooring the appearance of wood or stone.

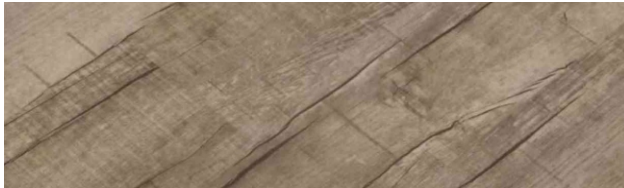

4. THE CORE

This is what makes SPC flooring unique and provides extra stability underfoot which increases its rigidity. These dense boards can withstand impacts that would dent regular LVP, which makes them the perfect choice for areas in your home with heavy traffic or even in commercial settings.

5. BACKING LAYER

On the bottom of each board is a backing layer. It's made from cork to make it a thick, high-quality backing layer to provide more comfort, insulation and sound absorption.

ANTIQUE COUNTRY OAK

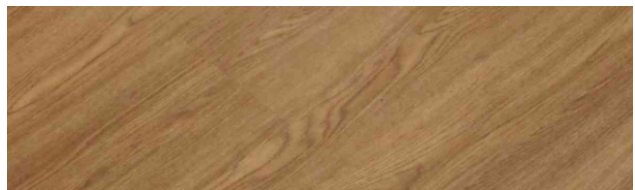

Antique Country Oak gives a rustic/modern look in your home. The benefit of an oak effect flooring is its natural effect and warm feeling makes it a popular option for your homes.

Size : 181mm x 1220mm
 Thickness : 5.35mm
 Wear Layer : 0.55mm
 Surface texture : Wood Embossed
 Product Code : SPC535AW0027

ENGLISH OAK

English oak has the versatility to go in any interior space as its light natural wooden effect and colour gives the floors a fresh and clean appearance that will compliment any style of furnishing and interior design, you would not believe it's not real wood.

Size : 181mm x 1220mm
 Thickness : 5.35mm
 Wear Layer : 0.55mm
 Surface texture : Wood Embossed
 Product Code : SPC535AW0029

VICTORIAN OAK

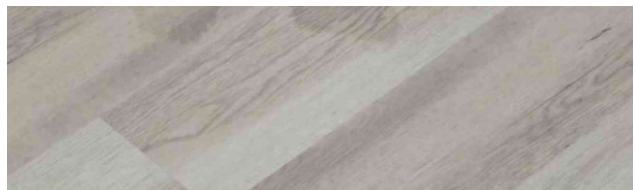

Victorian Oak is a classic choice for your floors, this brings elegance and class to your rooms and hallways with the deep brown natural tone and wooden effect.

Size : 181mm x 1220mm
Thickness : 5.35mm
Wear Layer : 0.55mm
Surface texture : Wood Embossed
Product Code : SPC535AW0019

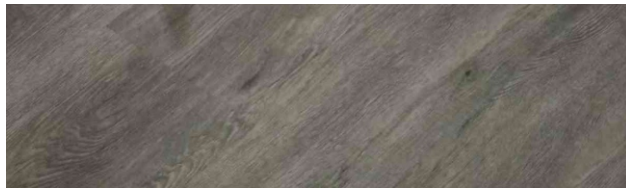

LIGHT GREY OAK

Light Grey Oak is a modern take on the original timber style. This is best for a family home wanting to make a new change to their interior. Light Grey Oak enhances the natural light in any room.

Size : 181mm x 1220mm
Thickness : 5.35mm
Wear Layer : 0.55mm
Surface texture : Wood Embossed
Product Code : SPC535AW0006

GREY OAK

The look and charm of the oak wood pattern, paired with the popular colour grey gives us Grey Oak GretaGrove's bestseller. Grey Oak offers a beautiful wood visual complete with nuances like deep wood graining and knot details for a natural look.

Size : 181mm x 1220mm
 Thickness : 5.35mm
 Wear Layer : 0.55mm
 Surface texture : Wood Embossed
 Product Code : SPC535AW0015

BLACK WOOD

Black Wood is a truly sophisticated interior option for residential or commercial spaces. Black Wood's stylishness is evergreen. Be Bold. Be Grand and choose Black Wood for your flooring.

Size : 181mm x 1220mm
 Thickness : 5.35mm
 Wear Layer : 0.55mm
 Surface texture : Wood Embossed
 Product Code : SPC535AW0023
